"READ IT BECAUSE THEY HAVE TO"

"The News and Observer Is An Institution Read By Something Like 75,000 People, Two-Fifths of Whom Hate It Like The Devil."

(From The News and Observer, November 19, 1911.)

In connection with its year's work on the newspaper situation, Collier's offered sixty prizes of fifty dollars each in the cities and regions of the United States and Canada for the best letters from readers concerning their newspapers. It prints the prize-winning letters. In its issue of last week it prints the prize North Carolina letter—It was written by Dr. G. M. Cooper, of Clinton, and his subject was **"The News and Observer."** Colliers' paid Dr. Cooper fifty dollars for the letter, as it paid fifty-nine others who wrote the best criticism concerning newspapers in all States. These letters have been interesting and illuminating and helpful both to the public and to the editors. It is a good thing for an editor to read the opinion of a subscriber, particularly when a great newspaper, like Colliers' thinks enough of the opinion of the writer to pay fifty dollars for it. If he is a wise editor he will be helped by candid criticisms. Dr. Cooper's is most kind, but is the sort of criticism of which it was said by the highest authority: "Faithful are the wounds of a friend." Here is his article for which Colliers' paid Dr. Cooper fifty dollars:

RALEIGH, N. C.

I read the daily **"News and Observer"** of Raleigh, N. C. **That paper is an institution. It is read by something like seventy-five thousand people, two-fifths of whom hate it like the Devil,** but read it just the same. Why? Because they have to. Its policies make and unmake Governors, Senators, Judges and lights of lesser magnitude. Politically it is mightier than all the politicians and bosses in the State, for the simple reason that it is backed by public opinion.

Ask any of the enemies why they read **The News and Observer** and the answer is always the same: "It publishes the news." That is literally the truth; nothing of real interest is suppressed. By "news" I do not mean the sickening stories of crime and domestic infelicity that fill the columns of most daily papers. I mean news of political importance or of significance to society in general. In other words, **its news matter is clean and healthy. In its editorials it reflects the best thought of the soundest thinkers in the country and especially the South.**

Another good reason for the influence wielded by this paper is its direct personal appeal. No one knows or cares who owns its stock, **but every line it publishes is universally regarded as the honest, sincere convictions of the editor.** To illustrate this point: It is Democratic in politics, and whenever a Republican speaker or paper alludes to an editorial in The **News and Observer** they always refer to "Josephus" (its editor is Josephus Daniels). That is "personal journalism" which might make even a Nelson or a Watterson take notice. No mortal man can measure the influence which this one paper exerts. It has fought and won many battles for better conditions in North Carolina. Its voice has been remarkably clear for the people against special privilege in national affairs.

Much more might be said in commendation of this paper, which for many a year to come bids fair to continue master of the newspaper field in this section of the South. But what I have said is sufficient to illustrate its power for good.

On the other hand what criticism have I to offer? Very little. First, and chief, it is not at all times and in all things consistent. For instance, it carries no whiskey advertisements, but thousands of its friends are frequently forced to blush with shame at some of its glaring patent medicine announcements.

Second, and in conclusion, as a friend to the principles for which this paper stands; as one who loves the glorious history of this great country, and who hopes for its future, I would beseech its editor to beware lest in its zeal for the cause he brings to me, perhaps unconsciously, just a little more of the spirit of partizanship than of the spirit of democracy.

North Carolina Day.

The 12th day of October of each year is set apart as "North Carolina Day" in the public schools of the State by an act of the Legislature of 1901. The day is "devoted to the consideration of some topic or topics of our State history, to be selected by the State Superintendent of Public Instruction."

Signers of Declaration of Independence.

The signers of the American Declaration of Independence from North Carolina were William Hooper, lawyer, born in 1742, died in 1790; Joseph Hewes, merchant, born in 1730, died in 1799; John Penn, lawyer, born in 1741, died in 1788.

Speaker of U. S. House.

North Carolina has furnished only one Speaker of the United States House of Representatives. Nathaniel Macon was three times chosen Speaker, and presided over the Seventh, Eighth and Ninth Congresses.

Democratic State Platform—1920

(Adopted April 8, 1920.)

We, the representatives of the Democratic party in North Carolina, in State Convention assembled, reaffirm our devotion to the principles of democratic government, formulated by Thomas Jefferson, and since his day constantly kept alive and applied in the administration of the affairs of our nation by the representatives of the Democratic party.

We endorse the administration of the governmental affairs of the United States by the Democratic party under the leadership of Woodrow Wilson, and in doing so we direct attention to the fact that when the party assumed control on March 4, 1913, it found the people of this country hampered by a system of Special Privilege, a vicious tariff system, created for the benefit of a favored class, an archaic banking and currency system, which fostered a money trust in the hands of a few great bankers, and a monopolistic control of many of the great key industries of the country upon which the masses of the people depend for their necessary existence.

We endorse the Senators and Representatives in Congress from our State, who have so faithfully and ably performed their official duties.

We view with great pride the able and successful administration of the affairs of the Navy Department by our distinguished Secretary of the Navy, and we denounce unjust and unpatriotic efforts of the Republican party to discredit the great record of the Navy in the war, for purely partisan purposes.

For six years the Democratic party was in complete control of the Government. During this period a greater number of constructive measures were enacted by Congress than were ever enacted in the same length of time by any administration in the history of the country. The complete program comprises, among many others, laws providing for the following:

(a) A graduated income tax, which placed the burden of taxation upon those most able to bear it.

(b) The completion of the measures for the election of United States Senators by direct vote of the people.

(c) Providing for publicity of campaign expenditures, for the purpose of preventing the scandalous use of money in primaries and elections. The imperative need of such laws has recently been demonstrated by a notorious example within the ranks of the Republican party.

(d) Federal aid to good roads—thus affording to those who live in the rural sections, and who are the mainstay of our nation—some of the benefits which arise from constant and easy contact with the outside world.

(e) Vocational education, by which every boy and girl in both city and country may enjoy the opportunity of acquiring technical training in his or her chosen vocation.

(f) The Agriculture Extension Act, by means of which the benefits of science and experimental research are carried to the door of the humblest farmer of the land.

(g) The establishment of a Department of Labor in the Cabinet, with a genuine representative of labor at its head.

(h) A non-patisan tariff commission, for the purpose of taking the tariff out of politics, and relieving American business of the injury and uncertainty growing out of the constant tinkering with our tariff laws.

(i) The establishment of a Federal Trade Commission for the protection of honest business from monopoly and unfair competition.

(j) The Webb-Pomerene law, and the amendment to the War Finance Corporation Act, under the provisions of which our foreign commerce is being extended and fostered so that the United States may assume its rightful place of leadership in world trade.

(k) The creation of a great merchant marine, which gives us a ship tonnage equal to the combined tonnage of all the nations of the world, except that of Great Britain, which now exceeds ours by a small margin.

(l) Establishment of the Federal Reserve Bank system, which supplanted a system created and promoted by the Republican party, under which a small coterie of selfish men had for nearly fifty years controlled the financial resources not only of the people of this country, but of the government itself. This group, commonly known to the people as the "Money Trust," under the monopolistic control enjoyed by them, could, and frequently did, create currency panics, to suit their convenience, and thereby visited upon the helpless masses untold misery and financial loss, for which they were in nowise responsible.

The Republican party, always the champion of special privilege for the favored classes, could not and did not correct these abuses, because that party was largely controlled by the recipients of their special privileges.

It is generally conceded by statesmen and financiers, both here and abroad, that but for the magnificent functioning of the Federal Reserve Banking system the war could not have been financed and victory could not have been won.

(m) The Federal Farm Loan Banking System, whereby the farmers of the country were relieved from the extortions which previously existed, and enabled to borrow money freely on long time and at as low rates of interest as are available to any other class.

When this country was forced into the war against Germany in April, 1917, we were without an army of any consequence. There were only 82,000 regular soldiers. We had few ships. The Democratic Administration raised an army, and raised it quickly. It required a fleet of ships to carry food, supplies, and the army itself, across the seas to save the liberties of mankind.

This country under a Democratic Administration created, trained, transported and put into action 2,000,000 men to fight 3,000 miles away from home. It had 2,000,000 more in training in the military camps of the country ready to go when needed. It won the war. The army was brought home safely and in good condition.

When the armistice was signed, the United States, under President Wilson, occupied the chief position of moral leadership of the world.

Every newly liberated people looked to the United States as the light of the world.

Every nation, wearied by the long years of war, hoping for a revelation of triumphant democracy, looked to the United States for an enduring peace. Every honest man in every country in the world looked to the United States as the one nation of modern times whose motives were above suspicion, whose achievements in the war were great and untainted by greed or the desire for conquest, and saw here the one and only chance for the disinterested championship of peace and fair dealing among nations and the government of the world by just international laws, instead of by brute force.

The Republican leaders, as soon as the armistice was signed, entered into a conspiracy to discredit the President in his peace negotiations. Personal spite and envy were everywhere discernible. Political animosity followed

the President to the peace table. Slander, unjust criticism and threats of Senate opposition were constantly circulated, and finally the so-called Republican "round robin" was signed and communicated to the delegates assembled at the Peace Conference. Every unfair device which bitter partisanship could suggest was resorted to for the sole purpose of weakening the influence of the American peace delegates and if possible to make their task of negotiating a permanent and acceptable peace impossible.

At the very time when every consideration of fairness, every patriotic impulse, called for a whole-hearted and non-partisan support of the American delegation, personal spite and envy and political bias characterized the Republican leadership in the Senate, in their attitude toward the President and his work at the Peace Table.

When the President came back with the treaty, embodying the best thought of the world, including the covenant of the League of Nations, for the purpose of making future wars impossible, every natural impulse of the human heart everywhere was in accord with that purpose. But the Republican leaders were determined to discredit and embarrass the President, at whatever cost to America and the world. At the outset they "packed and hand-picked." the Senate committee on Foreign Relations for the express purpose of defeating the treaty.

Their whole course for the eight months they have been considering the treaty has been definitely conceived and relentlessly pursued for the sole purpose of destroying that great instrument. These Republican leaders, for the time being have succeeded in their unholy purpose. They have repudiated the treaty; they have wrecked the League of Nations; they have prevented world peace; they have repudiated a world leadership which all the civilized nations, including not only our allies, but also those who were not engaged in the war, accorded to America.

A small number of narrow and prejudiced partisan men, constituting the Republican leadership in the Senate, have nullified what it took 2,000,000 American soldiers on the fields of France to accomplish.

America demanded that the promises made to our soldiers in 1917 and 1918 be kept—that there should be an end of war; that the fruits of victory should be garnered and kept forever. America demanded an enduring peace. The Republican leadership in the Senate has repudiated these promises. It has caused the United States to repudiate its associates in the war. It is now endeavoring to place this great nation, that sacrificed so much for victory, in the shameful position of a moral coward, seeking to shirk its duty to itself and the oppressed peoples of the world; it is at this very moment endeavoring to humiliate the country by having it go on its knees to Germany begging for a separate peace, upon such terms as the defeated War Lords of Germany may see fit to impose.

We believe that the enlightened sentiment of the men and women of this country is in favor of the ratification of the treaty with the covenant of the League of Nations as a verile part of it.

We believe that the Democratic party is the only instrumentality available through which the American people can repudiate the disgraceful action of the Republican leaders; and at the same time forever put an end to such a military autocracy as was bred in Prussia and hurled upon the democracies of the world at the outbreak of the World War.

We therefore approve of the action of our President and our North Carolina Senators demanding the ratification of the treaty with Germany, including the covenant of the League of Nations, without destructive or nullifying reservations, or amendments.

We denounce the Republican majority in Congress for its efforts at the present time to criticize the part which the American army and navy played in winning the war. The balance of the world, including not only our allies, but the enemies, have accorded to America the honor of finally turning the scales against the enemy and making victory possible. The only denial of our conspicuous part in this great achievement has come from the Republican party in Congress.

We heartily endorse the measure adopted by a Democratic Congress which has given us a great Merchant Marine, a great shipbuilding industry, and we favor all such additional measures of constructive, or remedial legislation as may be necessary to maintain and operate, under the American flag, the large tonnage we now have, and also to constantly increase that tonnage, until the American flag is supreme on the high seas.

We strongly commend the action of the Director General of the Railroad Administration in granting to our South Atlantic ports, including those in North Carolina, the same favorable rates upon freight for export as have always been enjoyed by the great seaports of the North Atlantic States, and thus removing unjust discriminations which have for so long hampered and prevented us from exporting our own products and those of the Western States through our home ports.

We also endorse the action of the United States Shipping Board under President Wilson's administration for allocating to our Southern ports, including those of North Carolina, an ample number of ships for export traffic, thereby making it possible to establish regular shipping lines to and from these ports.

We glory in the courage and fortitude of our soldiers who fought and helped to win the Great War, and we favor a generous policy toward them by our National Government.

This convention recommends to the Democratic members of the General Assembly of North Carolina that at the approaching session thereof they vote in favor of the ratification of the proposed nineteenth amendment to the Federal Constitution.

In State affairs the Democratic party owes to the people responsibility for 21 years of continuous control of our government, and presents its record of stewardship as the surest guarantee of its capacity and ambition to measure up to the highest standards of public service in solving the problems of the future and the greater State.

The record of State administrations headed successfully by Aycock, Glenn, Kitchin, Craig and Bickett—equalling the best traditions of the past in noble purpose, and successfully meeting the problems of a rapidly growing and developing State—furnish abundant inspiration for those who come after them.

We endorse the administration of Governor Thomas W. Bickett, and of all departments of the State Government.

Rigid economy in expenditure of public funds has been a fundamental tenet in Democratic faith and practice. The Democratic party came back into legislative control in this State in 1898 upon a platform of pledging adherence to a policy of rigid economy. How well it has kept the faith during these years of continuous control is shown by the fact that, while keeping up with the march of progress, Government still costs the people of this State less per capita than in any other State in the Union, save one, and exactly even with that one, as shown by carefully collected reports of the United States Census Department.

Times have changed, and North Carolina is no longer a poor State. Wealth has multiplied

on every hand. Increased wealth brings increased opportunities and responsibilities to the State, but makes none the less imperative the fundamental principle, to which we declare renewed allegiance, that every dollar of public funds is a trust fund, to be administered with the utmost fidelity to the public interest.

Further safeguarding economical expenditure of the public funds the last General Assembly established the budget system, for future appropriations by the General Assembly, requiring that all demands for appropriations from the State Treasury, except for emergencies, be submitted to the scrutiny and investigation of a Budget Commission, in advance of the convening of the General Assembly.

We approve the record of efficiency and economy which enabled the last General Assembly to reduce the tax on property for the use of the State. State expenditures have necessarily increased, as the State has every year enlarged the sphere of its service to the people, and with the declining value of money the cost of maintaining State institutions has necessarily increased but increased revenue has been secured by more efficient administration of other forms of tax, and the tax on property for the use of the State was reduced last year from 23 2-3 cents to 11 2-3 cents, and including both State and pension tax was reduced from 27 2-3 cents to 15 2-3 cents. Under the higher valuations this year this rate will be reduced to about 4 cents on each $100 of property.

We endorse the action of the General Assembly in submitting to the voters the income tax amendment, in order to correct the inequalities of the present income tax law.

No less fundamental as a public virtue than economy in expenditure of public funds is the necessity for equality of the tax burden upon every citizen. Careless administration of inadequate laws that result in gross inequality is no less vicious, in effect, and barely less intolerable, than practiced favoritism.

We solemnly declare that the one purpose of the Revaluation Act, enacted at a time when the State is decreasing its revenue from the property tax, and by unanimous vote of the Democratic and Republican members of the General Assembly, is to equalize the tax burden between all the people of the State as nearly as careful administration of just laws can accomplish this great purpose, and we solemnly pledge that under Democratic control it will be used for this single purpose. We call upon all the people of the State to cooperate in this great purpose, to remove as far as possible all discriminations and inequalities in the listing and valuing of every class of property for taxation, to the end that every citizen may be required to contribute no more than his just share of the public burden, and we pledge the party to the enactment of appropriate amendatory legislation to correct any injustice to any citizen or class of citizens that may develop in the adminstration of our tax laws.

The Revaluation Act has justified its enactment by placing much property on the tax lists that has heretofore escaped taxation, and correcting inequalities in revaluation, thereby relieving the honest taxpayer from unjust burden. It has for the first time shown the people of this and other states the wealth and resources of North Carolina, and has enabled the State to take her proper place among her sister states, all of which will be of incalculable benefit to the State if the rate of taxation for State, County and municipality is properly safeguarded. The pledge of the General Assembly to reduce every tax rate levied in the State for any purpose in proportion to the revised valuations of property will be and must be kept inviolate and we pledge the General Assembly to submit an amendment to the Constitution, at its special session, when it will have full reports on revaluation sufficient to enable it to name a just and equitable rate, limiting the rate of tax that may be levied by state, county and municipality that may not be exceeded except by vote of the people, and based on the principle of reducing the rate as the increase in valuation may justify.

The special objects of Democratic management of State affairs have been and will continue to be:

The care of the unfortunate and dependent classes.

A progressive policy of public education.

Protection of public health, and

The development of a modern system of public highways.

During this period of Democratic control every hospital in the State for the care of the insane has been greatly enlarged, the classes of patients received extended, and facilities for proper care and treatment improved and modernized.

Entirely new institutions have been established and maintained by the State for the treatment and instruction of those afflicted with tuberculosis, the feeblelminded and for delinquent boys and wayward girls. A hospital for surgical treatment of deformed children is under contract. In the care of dependent and defective classes of her population, and of neglected or erring children, North Carolina is now one of the most advanced States in the Union.

The education of the youth is the State's greatest enterprise, and it is imperative that our educational system shall not only be maintained, but every means available should be used to strengthen every part of the public school system in order that it may serve the people most effectively.

The last General Assembly gave a fine exhibit of the policy of the Democratic party to carry education to every class of people in every section of the State. It provided for a compulsory school term of at last six months, where heretofore it had been only four months; it increased the salaries of rural teachers in many counties 100 per cent, and in practically all at least 50 per cent; it provided ways and means for raising money with which to erect school buildings; it greatly improved the methods of teaching agriculture, home making, and trades and industries, and many sections of the State are now for the first time giving vocational education to many people that can profit most by it; and finally recognizing the need of better trained teachers it provided the means for training schools for all teachers, thus making it possible to improve at once the instruction in the school and supply a better grade of teachers for the State.

We recognize that a happy and prosperous citizenship must be an educated citizenship. The schools, therefore, must be so equipped that the youth may be properly taught and patrons must be encouraged to take advantage of the schools. We favor, therefore, such an increase in the salaries of teachers and such a system of teacher training as will make it possible to preserve for future generations the best of our traditions and give the children of all succeeding generations the best instruction that a genuinely Christian citizenship can afford.

We favor also all efforts to organize rural communities into large co-operative units where better school buildings and homes for teachers suitable to the needs of all classes may be given.

Moreover, we favor all patriotic efforts of whatever kind to eliminate illiteracy from our State and pledge our best efforts to support every wise educational measure, to banish ignorance, to promote moral, social and industrial progress, and to increase generally the

teaching of true Americanism in our Commonwealth.

As population becomes more dense, and as medical science has progressed in knowledge of the causes of disease, a more progressive policy in measures for protection of public health has become imperative. We approve the administration of all the departments of the State Board of Health, and we particularly endorse the work of the Division of Medical Inspection of Schools, especially the conduct of the free surgical and dental clinics for treating defective school children; and we approve the appropriation by the State of funds direct to the State Board of Health sufficient for the expansion of this.

We recognize that the establishment and maintenance of a system of State highways, connecting county seats and other principal towns of every county in the State, is a prime necessity of the growing demand of our urban and rural transportation.

This system of highways should not only adequately provide for the main lines of travel through cities and centers of population, but should also provide easy routes of communication to those remote parts of the State that have been too long denied suitable means of transportation to our own centers of trade and social life, and who have been forced to seek those advantages beyond our State lines.

We recognize that the system of State Highways, both as to construction and maintenance, should be a State burden, with Federal assistance, and that the road funds of the several counties should be released for the building and maintaining of the necessary local roads to connect this State system with several communities in the counties.

We pledge the Democratic party to carry out this program as rapidly as possible without undue burden on the tax-payers of the State.

We endorse the efforts that have been made to further equalize interstate freight rates, and pledge our continued support of this cause until discriminations have been removed and until equal and just rates are established on a basis that will be just to shippers and that permit common carriers to perform their full duties in furnishing adequate and efficient transportation.

We rejoice in the prosperity that has come to all classes of our people:

To the farmers, who have given to North Carolina fourth place among all the States of the Union in the total annual value of their agricultural products.

To our manufacturing and commercial interests, that have given to North Carolina eighth place among the States in annual production of income.

To the wage earner, in the higher level of wages and more just and universal recognition of rights.

Under National Democratic administration a distinction has been drawn between labor and commodities, and the right of labor and producers of argicultural products to organize and bargain collectively, has been clearly recognized.

The Democratic party can never be a class party. Its obligations must ever be to the whole people, fostering the harmonious development of every legitimate interest, but the just aspirations of these great classes are assured of our co-operation and assistance.

It stands for, and will seek to promote, a policy of justice, harmony and progress for labor and capital. It seeks not only the development our material resources, but the enrichment of life and opportunity for all classes, and the realization of the lamented Aycock's ideal—"The equal right of every child born on earth to burgeon out all there is within him."

With the rceord of achievement and faithful service, and with a constructive program upon every vital subject of State activity, we invite the confidence and the co-operation and support of all the people of the State, and appeal especially to the thoughtful consideration of the new voter, who comes to the polls for the first time in November, 1920, to join us in this enlightened program of progress and State building.

Republican State Platform—1920

(Adopted March 3, 1920.)

We, the Republicans of North Carolina in convention assembled at Greensboro, North Carolina, this March 3rd, 1920, through our representatives, declare as follows:

We re-affirm our allegiance and devotion to the time-honored principles of the Republican party and pledge ourselves to do all in our power to make these effective in the State of North Carolina and in the country generally. We are proud of the history of the Republican party and of its matchless leaders.

We commend that brave and patriotic band of Republicans in the United States Senate who have prevented the confirmation of the League of Nations unamended as attempted to be forced upon the American people by President Wilson. We re-affirm our allegiance to the principles contained in the warnings of George Washington against the American people entering into entangling alliances with foreign nations.

We denouce the Democratic National administration; it has demoralized the industries of the country; its lack of foresight, want of preparedness and partisan conduct of the affairs of the nation during the World War have been inexcusable; it has been incompetent, wasteful and extravagant; it has failed to keep its promise to reduce the high cost of living.

Taxation: We condemn in unmeasured terms the unfair methods by which the Democratic party in North Carolina is attempting to administer the taxation law. We condemn the policy of revaluation of real and personal property in most instances, upon inflated, fictitious or transitory values. The valuation of personal property as of the first day of January is unfair to many classes, particularly the farmer, and we favor the assessment of personal property as well as real property as of the first day of May. Such a system as is now being pursued is wholly opposed to a fair, honest and equitable system of taxation which we favor.

Political divisions: We demand such a readjustment of the Congressional Districts in North Carolina as will make them contiguous, compact and in harmony with the principles of a republican form of Government, and in conformity with the Federal statutes governing the formation of such districts, we also demand such readjustments of Judicial and Senatorial Districts as will be in harmony with the same principles.

Inasmuch as the Democratic practice of indiscriminate appointment of justices of the peace by act of the Legislature has resulted in bringing that ancient and honorable office into disrepute, we stand for the election of justices

of the peace by the voters of their respective townships.

Women Suffrage: We are unqualifiedly in favor of the ratification by the General Assembly of North Carolina of the proposed Nineteenth Amendment to the Federal Constitution granting the right of suffrage to women.

Labor and Capital: We stand for the just rights of both labor and capital. We believe that capital should be permitted and encouraged, under the protection of just laws, to develop and expand our industries, and to receive reasonable returns therefrom; we likewise believe that labor should be employed under conditions honorable to manhood and favorable to life and health, and at a rate of wages, which taking into account economic conditions, will insure a comfortable living for the working man, together with the education of his children; and that he should have the same opportunities for advancement and the enjoyment of life as are accorded to others; but we oppose any action, by either labor or capital, acting either in collusion or in antagonism to each other, which militates against the rights of all other American citizens. We hold that the interests of both labor and capital are subordinate to the public welfare and indeed that the public welfare shall always be supreme.

Agriculture: We pledge ourselves to do all in our power to advance the well-being of the farmer; to secure for him a larger share of the profits of the products of the farm; to lower his burdens of taxation; to aid in construction and maintenance of roads for the quicker and cheaper transportation of his products; and for the betterment of the conditions of country life in general.

Elections: We favor the right of every person, who is a legal voter, to cast a ballot and have it duly counted; we stand for honest elections based on the Australian ballot, and to this end demand the repeal of the home-voting provisions of the Absentee Voter's Law.

We believe that each Judicial District is entitled to not only nominate, but elect its own Judge of the Superior Court, and we favor legislation to discontinue the present system of election of Judges by the voters of the entire State.

Roads: We most heartily favor the encouragement and development of a state-wide system of public roads and to that end favor a policy of State and Federal co-operation.

Education: We pledge our most hearty support to our public schools; we favor enlarging their scope and increasing their efficiency; we stand for better school-houses; better equipment, extended courses of study and the furnishing of school books by the State to all public school pupils; we favor a substantial increase in the salaries of teachers and a larger equipment for their work; and we are unqualifiedly in favor of the election of all school boards by popular vote.

Freight rate discrimination: We denounce the betrayal of our State by the Democratic Corporation Commission in permitting continuous railroad rate discrimination against the State of such a gross character, and of such volume as to drive hundreds of business enterprises to other States and at the same time to levy upon our people an unjust and enourmous burden of taxes in the form of excessive freight rates; and we pledge our members of the Legislature and our State officers to support any and all legislation necessary to bring about such relief.
